The Valley Herald newspaper, your source for local news, will be publishing its annual Progress edition in the Spring of 2010. Each year Progress focuses on a business or community activity, compiling information of interest in a historical format. The paper is distributed to Valley Herald subscribers, newsstands and is a great publication of interest within the Walla Walla Valley communities. Past interests of the paper have included: Farming, Teaching, and Youth Sports. This year our focus is on the ranching community.
